

Creative Care

In our ever changing world, we feel it is important to build within the child the foundation for a lifetime of creative learning.

Our Goals are;

- To Provide children with a safe, stimulating and enjoyable preschool environment.
- To give them happy experiences and joyful memories while learning new skills and interest to enrich their lives.
- To Provide the best Developmentally based Curriculum that focus's on emotional, intellectual, and social needs.
- To provide nourishing meals and snacks throughout the day catered by Hwy 620 Cafe

Center Overview

Our Curriculum is designed to motivate your child to enjoy learning. We believe children learn by doing. The more involved they are, the more enriching the experience. We also believe that learning should be fun. Our programs are designed to be age-appropriate, challenging, activity oriented and enjoyable. Children will not be rushed or pushed into meeting preset goals. They are encouraged to grow and learn from the experiences that are offered and to have a great time while doing so!

Our programs and classroom activities revolve around a weekly lesson plan. Lessons plans are posted so you may follow your child's program. "Daily Notes" are provided every day for each child aged 6 weeks to 2 years old to help you follow their day.

Off staff members are well trained, early childhood professionals who are warm and dedicated to their profession. It is required that our staff be CPR certified and first aid certified and they receive 24 hours of training in their age group annually. They implement our educational program and provide consistent care that offers your child the chance to grow and develop according to his or her own ability. The teachers endeavor to provide an environment that nurtures self esteem.

Placing your child in the care of someone else will always be an important decision.

At **Creative World Learning Center-Austin Inc.**, we want to make your selection a comfortable one. We strive to provide an environment appropriate to the needs of the each child, a place your child can look forward to coming each day, and a center where you know your child's well being is our number one goal.

Program Highlights

Infant Care

Ages: 6 week to 11 months

Teacher to child ratio: 1 to 4

Infants require a lot of love and attention. In the infant room, we provide a warm, nurturing atmosphere for our babies so they may thrive. Age appropriate toys; such as swings, exer-sausers, bouncy seats, and indoor play area

Infant Care Cont.

filled with playthings, are provided to help develop each child's quickly growing skills. We help your baby roll over, sit-up, crawl, stand and walk, as well as hold a bottle. The walls are brightly decorated to provide visual stimulus, and the children are held and read to and have music to listen to throughout the day.

Meals are provided on demand or according to parent's instructions. Each child is assigned a teacher and a crib. We provide sheets that are washed daily. When your baby is old enough to eat table food, we also provide lunch and snacks. An infant record is kept daily that indicates when the baby's diapers were changed, when and what they ate, when they slept.

Toddler One Care

Ages: 11-17 months Teacher to child ratio: 1 to 5

Ages: 18-24 months Teacher to child ratio: 1 to 9

As Children become toddlers they become explorers. In our Toddler One program, we use this to aid in their development. We have a daily schedule that includes activities to enhance their large and small muscles, such as tunnel play, building with blocks, ad hand-eye coordination games. At this age, children are beginning to recognize colors, animals, and shapes. We help develop this by making colorfully illustrated books, watching videotapes, and making art projects by coloring, and painting. Singing, dancing, music are also a big part of the our day.

Toddler Two Care

Ages: 24 months to 36 months

Teacher to child ratio: 1 to 11

When toddlers reach two, they become more independent. Our Toddler Two program is geared toward helping them know what this means. With parent's consent, we begin potty training by encouraging them with praise for their efforts. Our curriculum includes helping the children learn their colors, shapes, and animals by showing them pictures of each. Through recognition, they begin to learn their names and numbers. They also have the opportunity to learn through songs and hands-on experience. A toddler record is kept daily that indicates when the children's diaper were changed, or if they went to Potty or when and what they ate, and when they slept.

Three-Year-Old Care

Teacher to child ratio: 1 to 15

The Three Year Old class is fun, energetic class full of learning. Throughout the day, the children are challenged with small and large motor skills activities in large and small group circle time. Morning activities include discussions of the weather, seasons, and days and months of the year. Afternoon activities are developmentally age appropriate and revolve around learning and providing growing experiences through activities such as painting, counting, puzzles, block building, dancing, singing, music and housekeeping.

Pre-Kindergarten Care Ages: 4 to 5 years

Teacher to child ratio: 1 to 18

The Pre-K class is divided into different play and learning centers. Children learn best by experiencing different problems. Decisions making situations are presented, and they learn to solve their own problems. The children learn how to share and develop long-lasting friendships among their classmates, which helps to develop their social skills. Each child learns at their own pace, the basic skills needed to prepare them for kindergarten. They engage in many large muscle activities, such as outside play, and many music and movement activities throughout the classroom. They are not pressured to learn different tasks, but they are encouraged to try new things and are praised and complimented for their efforts.

Before and After Care Ages: 5 to 12 years

Kindergarten/ B&A / ratio: 1 to 22

In our Kindergarten and B&A Program, our children and staff members develop a long-lasting and trusting friendship with each other. The children are provided with a pleasant area to read, do homework or engage in other quiet activities. They may also participate in arts and craft projects and indoor/outdoor games that are appropriate and enjoyable after long day at school.

On teacher workdays, we provide special activities. Our facility has a bus drop-off and pick-up provided by the county for children attending elementary Schools near the center. A staff escort's the children to and from the bus stop.
